Elena Rostova

Lead Full-Stack & Mobile Developer

Toronto, Canada | +1 (416) 555-0193 | elena.rostova.code@gmail.com | linkedin.com/in/elena-rostova | github.com/elenarostova

Professional Summary

Lead Full-Stack and Mobile Application Engineer with 5+ years of experience delivering scalable web and mobile applications. Expert in TypeScript, React, Next.js, and React Native with robust backend architectures in Node.js and GraphQL. Passionate about modern UI design systems, responsive web performance, and reliable state management using Redux and Prisma.

Education

University of Waterloo — Bachelor of Software Engineering (Honours) (Sep 2017 – Apr 2021)

- Specialization in Human-Computer Interaction, Full-Stack Web Architecture, Database Systems.

Work Experience

Lead Full-Stack Engineer at Nexus Interactive (Jan 2023 – Present)

- Architected high-performance web applications using TypeScript, Next.js, React, and Tailwind CSS.
- Designed and implemented GraphQL and REST APIs with Node.js, Express, and Prisma connected to PostgreSQL.
- Integrated real-time bidirectional messaging features utilizing WebSockets and Redis pub/sub.
- Mentored a team of 6 engineers and instituted unit and integration testing standards using Jest.

Full-Stack & Mobile Developer at VividApp Labs (May 2021 – Dec 2022)

- Developed cross-platform mobile apps for iOS and Android using React Native and Redux Toolkit.
- Integrated secure OAuth authentication and Stripe API subscription checkout workflows.
- Containerized development and staging environments using Docker, integrating CI/CD test automation.

Featured Projects

PulsePay Mobile | *Cross-Platform Fintech Wallet & Payment App*

- Engineered cross-platform mobile app in React Native and TypeScript supporting contactless QR transactions.
- Built Node.js microservices with GraphQL federated schema and PostgreSQL database via Prisma ORM.
- Achieved 95%+ test coverage across critical checkout flows with Jest and automated GitHub CI/CD workflows.

OmniBoard | *Collaborative Real-Time Workspace Platform*

- Built progressive web app (PWA) with Next.js, Tailwind CSS, and WebSockets enabling real-time canvas synchronization.
- Implemented document persistence in MongoDB and structured user profile storage in PostgreSQL.

Technical Skills

Languages & Frontend: TypeScript, JavaScript, React, Next.js, Tailwind CSS, HTML5, CSS3

Mobile & State: React Native, Redux

Backend & APIs: Node.js, GraphQL, REST APIs, Prisma

Databases & Cloud: PostgreSQL, MongoDB, Docker

DevOps & Quality: Git, GitHub, Jest, CI/CD
